

# AMAZING ASTRONOMY

WORKSHOP FOR KEY STAGE 2

**Did you  
know that William  
Herschel discovered  
the planet Uranus  
from his garden  
in 1781?**

**Find out about the solar system**

**Watch the film 'Constructing the Heavens'**

**Learn how and why an orrery was used**

**Visit 8 historic rooms and follow a trail**

HERSCHEL  
MUSEUM OF  
ASTRONOMY

**Supports the 'Earth and Space' Science programme of study**

- ★ Learn about William and Caroline Herschel's remarkable discoveries by exploring their house at 19, New King's Street, Bath, BA1 2BL.
- ★ Watch a film and hear a talk about the wonders of the solar system including how and why orreries were used (a mechanical model of the planets).
- ★ Walk to the world famous No.1 Royal Crescent (10 minutes) and enjoy a hands-on orrery-making workshop in the Servants' Hall Learning Centre.

The workshop lasts 3 hours and is available on weekday mornings. £4.50 per student, adults free. Packed lunches can be eaten in the Learning Centre by arrangement.

**For more information and to book,**

contact Polly Andrews, Education Officer on 01225 333895 or [pandrews@bptrust.org.uk](mailto:pandrews@bptrust.org.uk)

**Why not ask about joint visits with  
No.1 Royal Crescent at a discounted price?
